

HELO CUP

HELO CUP

A POPULAR CLASSIC

The Helo Cup is an excellent stove for regular-sized home saunas. It is easy to install and pleasant to use. It heats up quickly, and as it is mounted on the wall, does not take up extra space in the sauna.

Due to its popularity, the Helo Cup range has plenty to choose from. The Helo Cup ST model has a built-in thermostat and timer with 8 hours pre-heating time and 4 hours running time. The clear and easy-to-use controls are located on the lower part of the front panel, either on the right or left side as selected by the customer. The Helo Cup DE and D models have a digital control unit. Both models have a wide selection of controls to choose from.

The Helo Cup range offers stoves which are suitable for saunas measuring 3-13 m³. The recommended amount of stones is 15-23kg, depending on the power of the stove. It is possible to choose between black or chrome, depending on which is best suited to the style of the sauna.

Control options for the Helo Cup DE model: Easy, Midi, Digi I and Digi II
Control options for the Helo Cup D model: OT 2 PS-1, OT 2 PS-3, OT 2 PUi and OT 2 PLE

TYPE	POWER (kW)	SAUNA SIZE (m ³)	MINIMUM DISTANCES (mm) side / front / ceiling / floor
